Beveled Low Profile Edges

Purpose

Skil-Care fall mats are designed to reduce injury from falls off of the bed. Although there are numerous fall mats to choose from this mat is differentiated by its easy to care for one piece elastomeric foam surface, beveled low profile edges and imbedded nano silver that protects the mat from mold, mildew, stains and odor causing bacteria.

Easy to Use

This mat is available in two widths and the choice of width should be made by a trained professional.

1. Place the mat in front of the bed spaced evenly between both legs and parallel with the bed (mattress).
2. Assure that the mat is placed with the beveled side up.
3. Although this product is durable, rolling the bed wheels on the mat should be avoided.
4. The mat could be stored flat or rolled loosely.

Easy Care

The EZ Landing fall mat could be wiped clean with a spray and wipe cleanser. If disinfected, avoid using chlorine (bleach) chemicals.
