

# Aqua Air Exerciser

Order Number	Descriptions	Maximum Resistance Buoyant Force	Units
SKC-914800	Aqua Air Exerciser	3 lbs	Each
SKC-914801	Aqua Air Exerciser	5 lbs	Each
SKC-914802	Aqua Air Exerciser	8 lbs	Each
SKC-914803	Aqua Air Exerciser	10 lbs	Each

## Purpose

Water resistive therapy is excellent for strengthening the upper body and offers less risk to strain than land based exercise. The product is also excellent for support and balance in the water. The Aqua Air Weight is manufactured from chlorine resistant vinyl and dries quickly. The air valve provides easy filling access and can be filled by mouth or with the optional air pump. Depending on the amount of air filled, the buoyant force will vary.

Other features include:

- Variable submerged force
- Non-allergenic vinyl
- Low shipping cost
- Convenient to pack
- Dries quickly
- Made in the USA

## Warning

This device is only, intended as an exercise device and not as a life saving device.

## Easy Care

Wash with clean water after use in chlorine or salt water. The vinyl can be wiped clean with a standard disinfectant.
