Product Description

Vibrant and dynamic, just like the setting sun, the Sunset Harbor playset is the perfect structure to foster active and imaginative development. Children will have a blast accessing the play structure via a Vertical Ladder leading to a Horizontal Ladder that children can climb across. They can also reach the main platform by way of Pod Climber or stairs, elevating games of tag and capture the flag. Then, on the ground level, a Drum and Rain wheel facilitate creative and social play for children of all ability levels and render the play structure ADA compliant. A Pyramid Roof covering the Wave Slide platform provides much-appreciated shade and protection on hot and sunny days and gives children a place to cool off and catch their breath. The Sunset Harbor is available in a wide array of color options and quick ships with the lovely palettes shown here. Action packed, the playset makes the perfect child-friendly outlet for parks, schools, and daycare centers looking to accommodate whole classes during recreation time.
