QUICK START GUIDE

SuperTalker™ FT

speech device

To get started:

1. Add four alkaline AA batteries to device (batteries not included).
2. Select and attach message grid for 1, 2, 4, or 8 message locations.
3. Turn device on.
4. Select a level and grid using the controls on the spine of the device.
5. Press and hold the record button until the record light activates, then release.
6. Press and hold the desired message location, begin speaking when you hear a beep. Release when finished.
7. Press and release the record button to exit record mode.
8. Your device is now ready to use.

3 | Device Overview

- Microphone
- Recording Indicator Light
- Volume Control Buttons
- Sound Output Speaker
- Message Location
- Message Grid
- Message Grid Release

- Message Grid Storage
- Battery Compartment

Set Up
1. Select a level (1–8) using dial.
2. Slide the grid selector to 1, 2, 4, or 8
3. Attach overlay with correct keyguard

Record Messages
1. Turn power on (red light flashes)
2. Press and hold record button until red light appears, then release
3. Press and hold message location until beep, then begin speaking
4. Release message location when finished recording
5. Repeat steps 3-4 for additional message locations
6. Press record button to exit record mode (light will turn off)
NOTE: Only one message grid per recording level.

Step Ahead Jack
This feature allows for sequential activation of all messages on a selected grid. Each time a switch is activated, the next message in the sequence is played.

Toy/Appliance Jack
This feature allows for activation of a switch adapted toy or appliance. Playing a message in location 1 or 2 on a grid will activate the corresponding toy/appliance while the message plays.

Low Battery
Batteries should be replaced when the low battery indicator light begins flashing.

Low Memory
The light goes yellow when less than 2-minutes of record time are available.
