Thera-Glide®

Self-locking rocking chairs

The Thera-Glide® glider has a place for itself in the healthcare world, both for its therapeutic effects and for its incredible functional and safety features. Its patented automatic immobilization mechanism keeps the chair fixed when getting up and allows rocking when the person is fully seated.

The system is easy, quiet and locks in any position. Depending on the model, its adjustment options and accessories, you can adapt the Thera-Glide® to meet your specific needs. It is easy to maintain thanks to the removable upholstery and the materials used in its design.

Secure when sitting down

Rocks freely

Secure when getting up

R Series

Decorative Metal

(Available widths: 17", 20" and 24")

With its lifetime warranty metal structure, its Contemporary style backrest without overstitching and optional polyurethane armrests, the Thera-Glide® R model is a safe rocking chair that meets the strictest disinfection standards.

Contemporary style backrest for easy cleaning (Classic and Comfort Plus styles also available)

Elongated armrests for a better grip

Seat depth and backrest angle adjustment standard on 17" and 24" models, optional on the 20" Metal model

Fast and easy indexer height adjustments

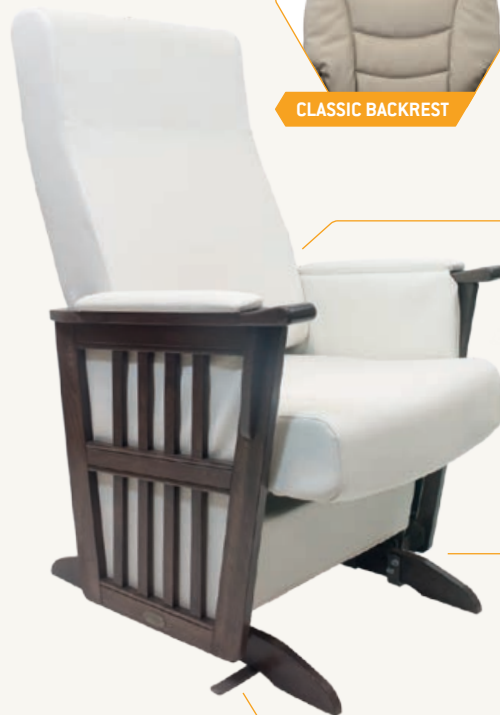

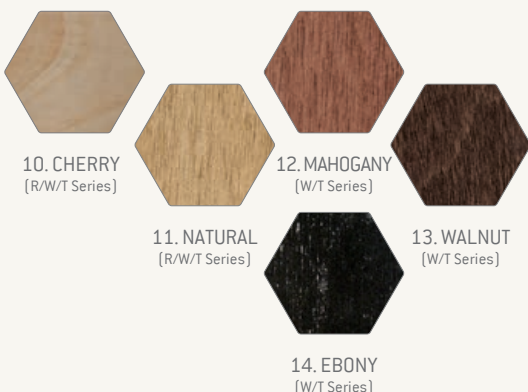

W-2 Series

Wood

(Available widths: 17", 20" and 24")

The wood Thera-Glide® benefits from the warmth of wood with traditional style wood arms and legs, yet retains a robust and durable inner steel frame.

Five wood stains and two backrest styles are available to help ensure the wood Thera-Glide® blends in your environment.

Seat depth and backrest angle adjustment standard on 17" and 24" models, optional on the 20" Wood model

Height-adjustment is standard for optimal comfort

Anti-tips providing four-axis stability for easy and safe transfers

T Series

Transitional Style

(Single width: 22")

The Thera-Glide® Transitional provides all the safety features of our other rocking chairs. Its "transitional" design blends comfort, warmth and modernity and will prove to be a valuable asset for your interiors.

Our T Series is suitable for many people. Thanks to its easy-to-clean waterfall cushion, curved wooden armrests, adjustable height and maximum capacity of 350 lbs. (159 kg), the Thera-Glide® Transitional is a safe rocking chair ideal for the common areas of your residences.

Ornamental wood frame
(see choice of W Series colours)

Upholstered side panels
for a sleek, modern finish

Rocking mechanism
manual lock (standard
on all models)

Anti-tips providing
four-axis stability for
easy and safe transfers

W-1 and W-3 Series

Oasis

(Available widths: 17", 20" and 24")

Our new, fully upholstered self-locking OASIS gliders are offered in 2 configurations.

The W-1 model offers smooth styling with single stitching and metal legs with integrated rear wheels. An ideal combination for facilities where style is important and infection control is critical.

The W-3 offers the same modern styling with additional double-stitching and wooden feet. With its optional armrests made of wood, the W-3 is the perfect amalgamation of style, comfort and adjustability.

Locking mechanism built
into the backrest

Robust
metal legs

Rear transport wheels,
ideal for the modern
clinical care environment

Anti-tips providing
four-axis stability for
easy and safe transfers

Rocking...

- + Significantly improves the quality of life for people experiencing a loss of autonomy.
- + Leads to a reduction in medication intake.
- + Therapeutically combats anxiety and depression in people with dementia and/or Alzheimer's¹.
- + Provides significant benefits to newborns and their mothers².
