

Vacu Magic® Slim Line

Fitness & Wellness

Forget about boredom during your training session! Now you can feel like you were running outdoors.

Working out has never been so real and pleasant. Additional functions speed up the reduction of calories and cellulite.

Vacuum effect – stimulates blood supply to the fat tissue in problematic areas such as waist, buttocks or thighs, thereby contributing to the accelerated release of fatty acids.

Infrared speeds up metabolism by raising body temperature and increasing sweating. It also helps in regenerating skin cells and warms-up the muscles. Vacu Magic is equipped with powerful IR lamp on each side.

The Vacu Magic Slim Line can be ordered with a treadmill, bicycle or elliptical stepper.
